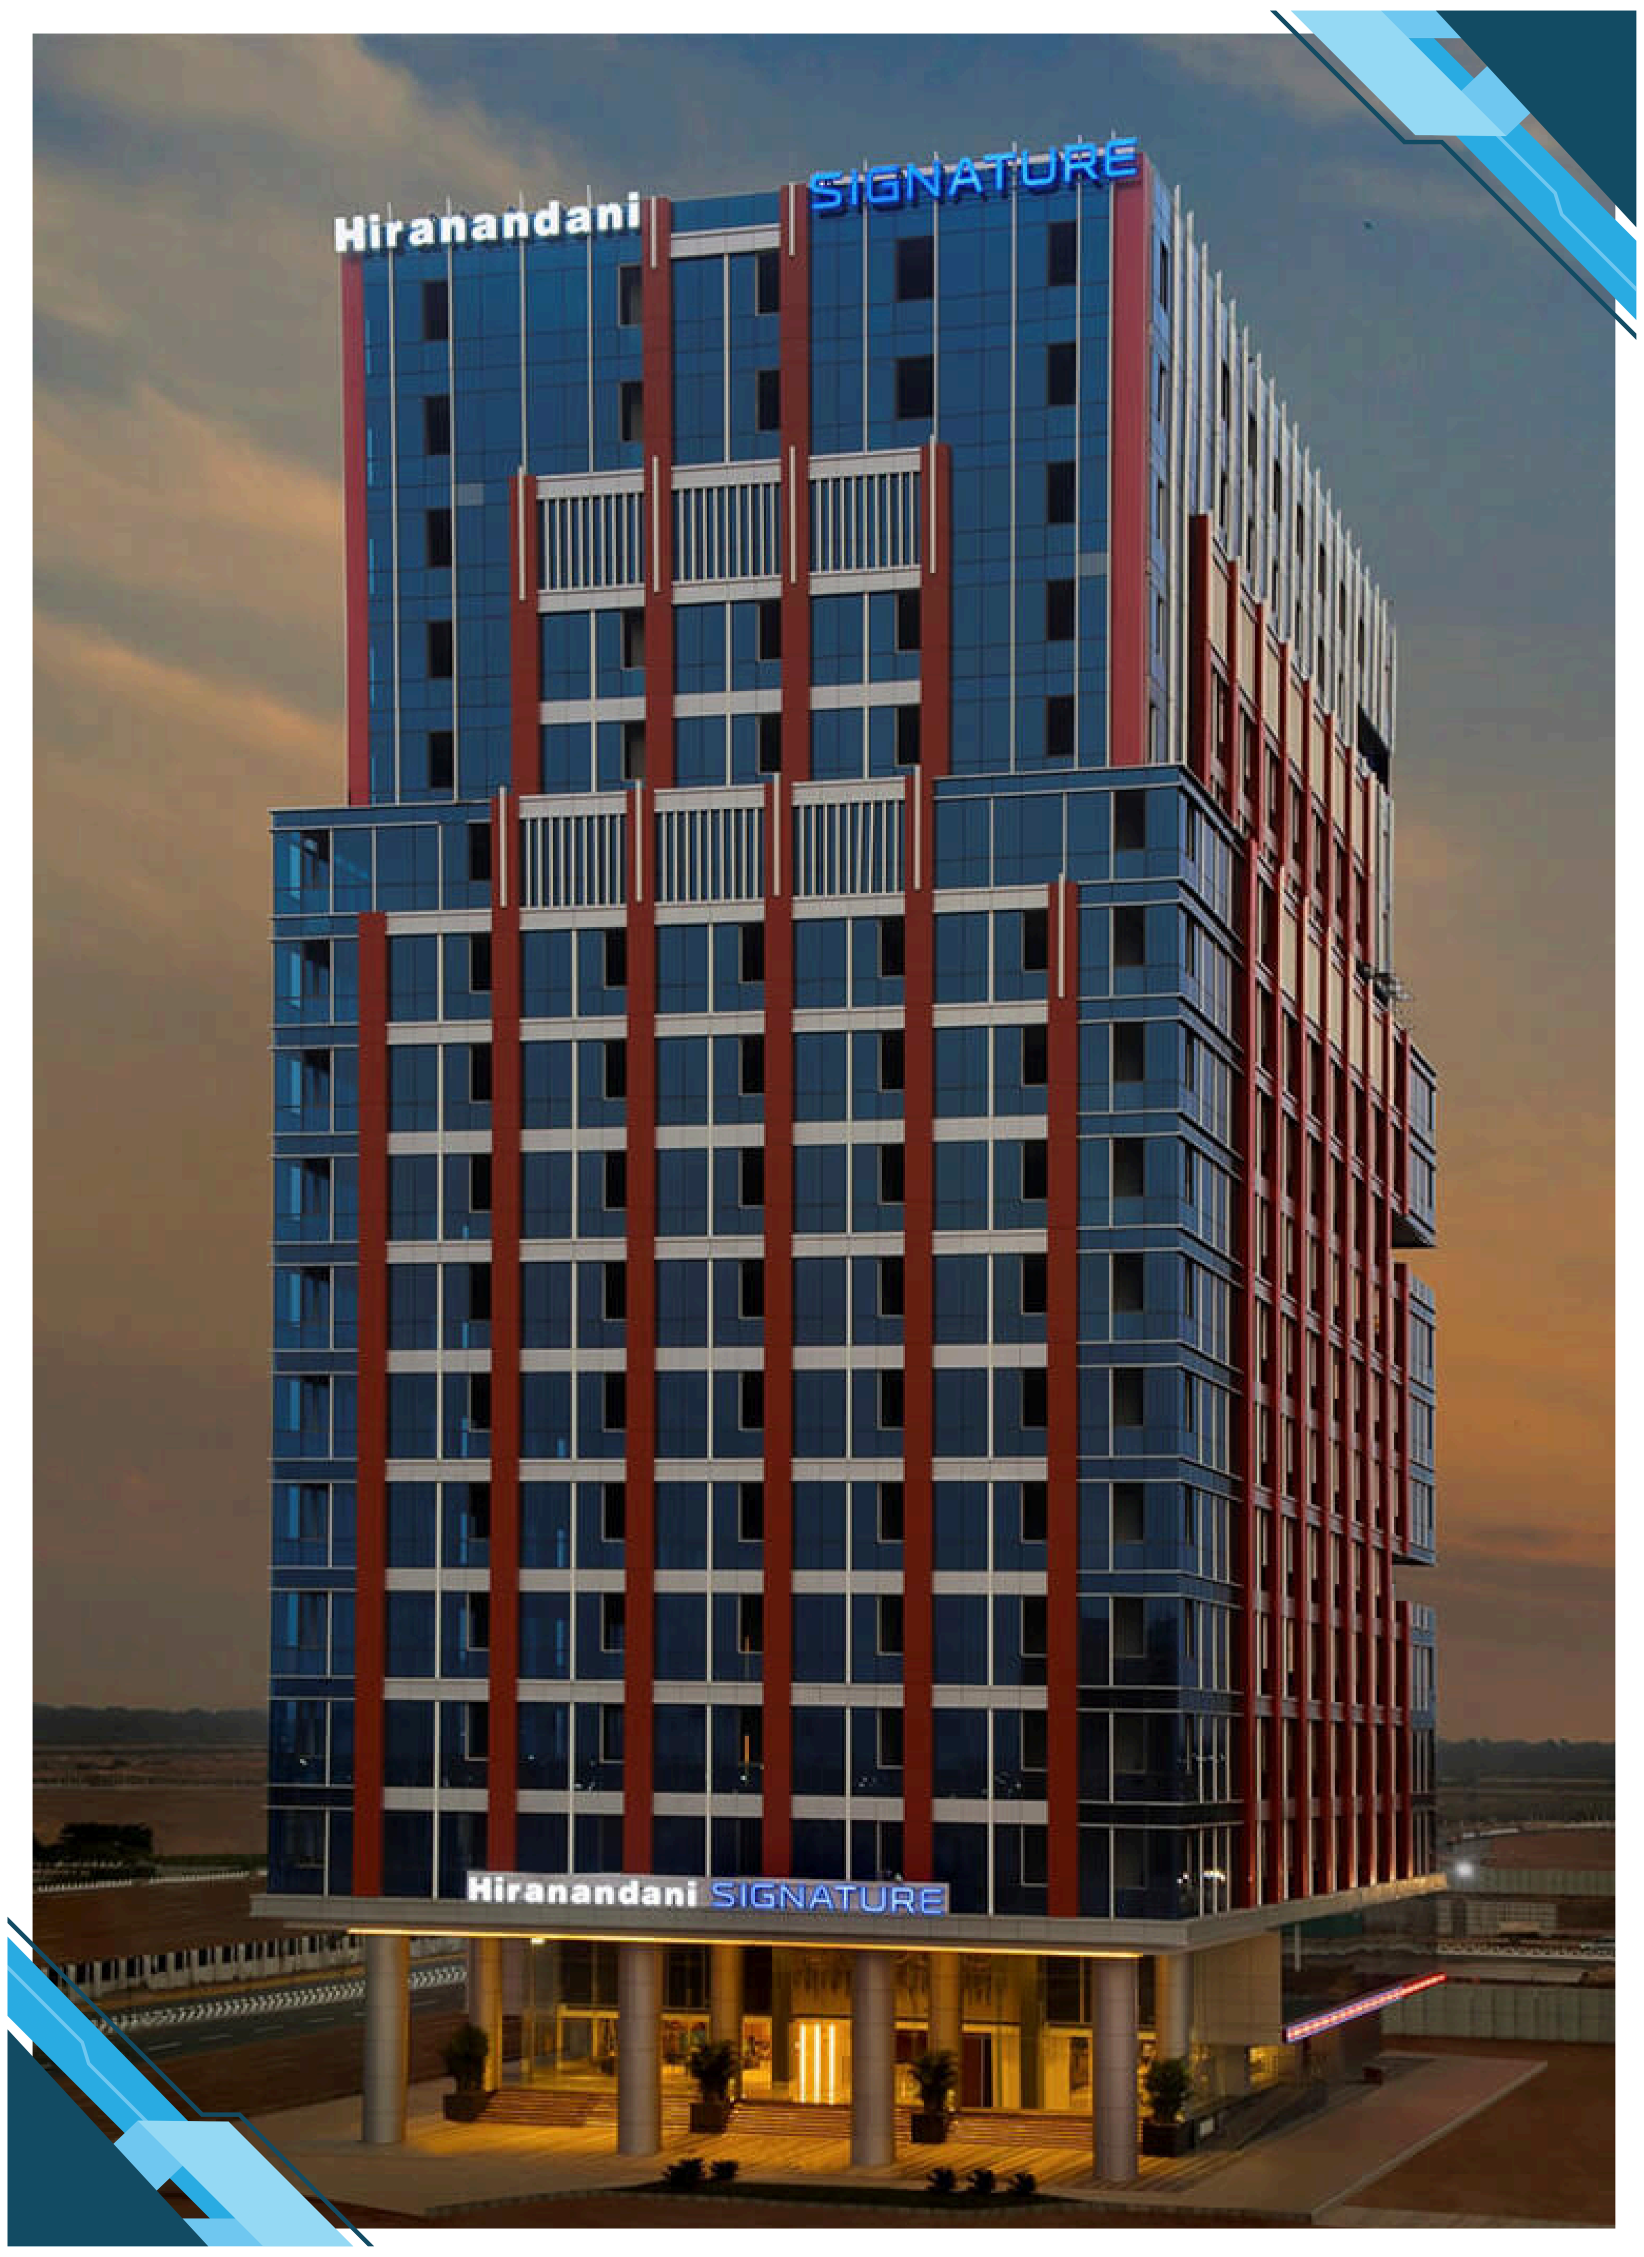
ALTUS FUND MANAGEMENT IFSC PVT LTD

About GIFT City

GIFT IFSC, located in Gandhinagar, Gujarat, is India's first and only International Financial Services Centre (IFSC). It serves as the country's premier financial services hub and a gateway for global financial flows in and out of India, fostering a competitive and vibrant ecosystem with a vision to create a world-class finance and IT zone for India and the world.



About IFSCA

The International Financial Services Centre Authority (IFSCA) is a unified authority for the development and regulation of financial products, financial services and financial institutions in the International Financial Services Centre (IFSC) in India. At present, the GIFT IFSC is the maiden international financial services centre in India. Prior to the establishment of IFSCA, the domestic financial regulators, namely, RBI, SEBI, PFRDA and IRDAI regulated the business in IFSC.

As the dynamic nature of business in the IFSCs requires a high degree of inter-regulatory coordination within the financial sector, the IFSCA has been established as a unified regulator with a holistic vision in order to promote ease of doing business in IFSC and provide world class regulatory environment. The main objective of the IFSCA is to develop a strong global connect and focus on the needs of the Indian economy as well as to serve as an international financial platform for the entire region and the global economy as a whole.

Our Expertise

Our seasoned team leverages over 35 years of capital markets expertise in quantitative trading, robust risk management, and strict regulatory compliance to deliver consistent results.

With a proven track record in building algorithmic trading infrastructures, we seamlessly operate within IFSCA's regulatory framework, leveraging AI-driven strategies to optimise execution and drive consistent alpha.

About Us

Located in GIFT City, India's only International Financial Services Centre, Altus Fund Management IFSC specializes in algorithmic trading across equities, currencies, and commodities. We leverage behavioural science and cutting-edge technology to deliver consistent returns for institutional and qualified investors in global markets.

Our platform automates opportunity discovery, execution, and risk management. Integrating AI-driven insights with robust risk controls, our team of seasoned professionals adapts dynamically to evolving market conditions. We combine deep expertise in quantitative finance, data science, and market microstructure, with a commitment to innovation and transparency to generate superior risk-adjusted returns while upholding the highest standards of governance and compliance.
